

Claremont BICYCLE PRIORITY ZONE — a safe and welcoming

place to inspire and encourage more bicycling for recreation, commuting, shopping and transportation.

The City of Claremont takes great pride in being a leader in providing bicycle friendly initiatives for its residents and visitors. Whether you are an avid cycling enthusiast, a commuter interested in alternative transportation, or just a weekend rider, the City of Claremont wants to provide you with a safe and easy cycling experience.

The City of Claremont has designated a Bike Priority Zone (BPZ) within the Village, the Claremont Colleges and the residential neighborhoods south of Foothill Boulevard and north of First Street. The BPZ emphasizes safe bicycle routes and parking facilities, as well as improved bicycle access. These conditions, in combination with the proximity to transit-oriented developments and mass transit opportunities, make bicycling a convenient commuting option. Within the BPZ, signage, striping and additional amenities/safety features alert drivers of the zone and of the presence of bicyclists. It is the City's intention to continue to enhance bicycle safety and awareness to attract new local riders as well as bicyclists from neighboring communities.
